

VOICE SMART NETWORKS Leverages InSpeed Networks to Provide Quality Services

A Simple Yet Powerful SD WAN Solution

LOS ANGELES/VENTURA/ORANGE COUNTY/SAN DIEGO – September 27, 2018 - InSpeed Networks™ the leading provider of self-driving SDWAN solutions and Voice Smart Networks, a leading technology firm headquartered in (LOS ANGELES/VENTURA/ORANGE COUNTY/SAN DIEGO), today announced that Voice Smart Networks has selected InSpeed Networks to help them provide unified connectivity, improved network performance, security and real-time visibility.

The InSpeed Cloud based platform provides Voice Smart Networks's customers with the ability to confidentially implement Voice and Video solutions over commodity Internet connections. Voice, Video and Virtual Desktop Infrastructure solutions work every time, all the time. InSpeed solves five common problems that we see businesses deal with every day: quality of service, visibility, business continuity, security and deployment and management challenges.

“Our customers are looking for advanced, secure communications over inexpensive commodity internet connections, that can be quickly deployed, and easily maintained, which made InSpeed's cloud platform the obvious choice for us,” said Ryan Mulvany, VP of Sales & Marketing. “Unlike competing solutions that require constant maintenance and, in the end only frustrate the customer, InSpeed, delivers an enterprise ready SDWAN solution designed to support companies of all sizes with an elegant

approach to solving a complex network issue.”

“We are delighted to enhance their Unified Communications offerings with InSpeed's self-driving service,” said Charles Krogman, Vice President of InSpeed Networks. “With InSpeed Quality Service (IQS), we deliver on the promise and vision of SDWAN without the complication of managing it. Why not let it run itself?”

Key Takeaways:

- Voice Smart Networks is a leading technology firm that has chosen the InSpeed cloud service to deliver best-in-class SD-WAN services to its large customer base throughout the country.
- Voice Smart Networks selected InSpeed Networks because their solution solves five common problems that their customers deal with every day: quality of service, visibility, business continuity, security and deployment and management challenges.
- InSpeed Networks, which creates the ability to reliably utilize commodity internet link for time sensitive traffic, fits perfectly with Voice Smart Networks mission to provide best in class Customer Satisfaction for their customers.

ABOUT VOICE SMART NETWORKS:

Founded in 1982, Voice Smart Networks is Southern California's leading unified communications company. The company's mission is to increase its customers' profitability, improve their productivity and give them a competitive advantage by implementing the right technology.

Voice Smart Networks is the only provider that protects its customers from the two risks of technology - obsolescence and cost. As its customers' trusted technology advisor, Voice Smart Networks has earned the position as the market leader and its customers' business through quality products and services.

As a premier member of Technology Assurance Group, Voice Smart Networks is able to fulfill all of its customers' technology needs. This means that the organization is the ultimate resource for business phone systems (VoIP and Session Initiation Protocol (SIP) provisioning), Managed IT Services, Network Security, Video Conferencing and Disaster Recovery.

Voice Smart Networks delivers future technology today! For more information, please visit please call 800-500-2696 or visit us at www.voicesmartnetworks.com.

ABOUT INSPEED NETWORKS

InSpeed provides businesses with the ability to simply install a service that Streamlines™ their commodity internet connections for crystal clear voice, artifact free video, and responsive virtual desktop sessions. InSpeed's Streamlining™ technology is self-adjusting and simple to install. Now customers can utilize commodity Internet to access critical cloud services, and safely move away from expensive fixed circuits without the risk of poor quality voice, video and virtual desktop sessions. Headquartered in Palo Alto, California, InSpeed offers its cloud service to its Channel Partners in the US and Canada. For more information, visit inspeednetworks.com.
