Voice Smart Networks Receives Telecommunication Industry's Top Award

Technology Assurance Group (TAG) Selects Voice Smart Networks as its Elite Telecommunication Company at the 2006 TAG National Convention

VENTURA, CA — March 30, 2006 — Voice Smart Networks, a leading telecommunications provider, announced today that the company received one of Technology Assurance Group's top awards at the association's 2006 National Convention held in San Diego in March. Technology Assurance Group (TAG), a national organization of independently owned telecommunication companies representing over \$300 million in products and services, selected Voice Smart Networks as the winner of the "Bronze Circle Award" for exceptional economic performance and superior customer satisfaction. Voice Smart Networks was highlighted as one of the nation's leading telecommunications companies during a prestigious awards ceremony.

The distinguished award is based on overall financial performance, customer satisfaction, and the ability to provide companies with cost effective and state-of-the-art telecommunications solutions. "Voice Smart Networks outperformed and surpassed many of the top companies in the industry," said Dale Johnson, president of Technology Assurance Group. "The company helped their customers embrace cutting edge technology and as a result businesses of all sizes received a competitive advantage and improved profitability."

Steven Gran of Voice Smart Networks accepted the award for the

company. "This award symbolizes our dedication and commitment to quality customer service and our efforts to stay at the forefront of a rapidly changing industry," said Mr. Gran. "The unending support we receive through our membership at TAG has enabled our organization to both learn and properly execute better business practices. TAG has helped us become a more successful organization and this has a direct correlation with the high satisfaction ratings we've received from our valuable customers. Voice Smart Networks is also fortunate to have a team of professionals that are willing to implement new business strategies. We're thrilled with last year's performance and we're striving to exceed these accomplishments in 2006."

Voice Smart Networks offers businesses a variety of communication solutions including telephone systems, local/long distance service, Internet connectivity, web conferencing, teleconferencing, call accounting, and Voice over IP (VoIP). The company's mission is to serve the business community with tools that make organizations run more efficiently, increase their profitability and give them a competitive edge in their marketplace.

ABOUT VOICE SMART NETWORKS

Founded in 1982, Voice Smart Networks is committed to establishing and maintaining a dynamic partnership with every customer. Extensive technology and service experience

allows Voice Smart Networks to team up with industry leading manufactures such as Mitel, ShoreTel, and Inter-Tel to develop an understanding of each customer's unique telecommunications requirements, and in turn, custom design solutions that increase their customer's profitability and make their customer's more competitive within their own industry.
