Voice Smart Networks Receives Telecommunication Industry's Top Awards

*Technology Assurance Group (TAG)
Showcases Voice Smart Networks as a
Top Telecommunication Company at
its 2008 National Convention*

VENTURA, CA — March 24, 2008 — Voice Smart Networks, a leading telecommunications provider, announced today that the company received two of Technology Assurance Group's top telecommunications awards at the association's 2008 National Convention held in San Diego in March. Technology Assurance Group (TAG), a national organization of independently owned telecommunication companies, selected Voice Smart Networks as the winner of the "Sales Performance Award" and "Chairman's Gold Circle Award" for exceptional economic performance and superior customer satisfaction. Voice Smart Networks was highlighted as one of the nation's leading telecommunications companies during a special awards ceremony.

The prestigious awards, which are given out annually, are based on overall financial performance, customer satisfaction, and the ability to provide customers with cost effective telecommunications solutions. "In 2007, Voice Smart Networks outperformed and surpassed many of the best companies in the business," said Dale Johnson, president of Technology Assurance Group. "Voice Smart Networks's customer oriented focus fueled the company's overall success. Throughout the year they provided their customers with state-of-the-art technology giving businesses of all sizes a competitive

advantage and improved profitability. Voice Smart Networks is one of TAG's premier members and we were proud to showcase such a fine organization at our national convention."

Mark Wadnizak, president of Voice Smart Networks, accepted the award for the company. "We're extremely proud of this accomplishment, because we were able to succeed, in a very competitive industry," said Mr. Wadnizak. "We attribute much of our success to the many benefits that we receive from our membership in TAG. The organization has been a refreshing approach to learning better business practices. TAG gives us support, focus and an outline to follow in order for us to build a better business. Voice Smart Networks is also very fortunate to have a team of dedicated professionals that are willing to implement new strategies. This process has not only benefited us, but our customers also experienced improved results in their businesses as well."

Voice Smart Networks offers businesses a variety of communication solutions including telephone systems, local/long distance service, Internet connectivity, web conferencing, teleconferencing, call accounting, and Voice over IP (VoIP). The company's mission is to serve the business community with tools that make organizations run more efficiently, increase their profitability and give them a competitive edge in their marketplace.

ABOUT VOICE SMART NETWORKS

Founded in 1982, Voice Smart Networks is committed to establishing and maintaining a dynamic partnership with every customer. Extensive technology and service experience allows Voice Smart Networks to team up with industry leading manufacturers such as Mitel, ShoreTel, and Inter-Tel to develop an understanding of each customer's unique telecommunications requirements, and in turn, custom design solutions that increase their customer's profitability and make their customer's more competitive within their own industry.
